

MICROCUT®

For sophisticated processing in microerosion

- The high-tensile steel core of **microcut®** EDM wire reliably sustains high wire pre-loads, even with the smallest diameters
- Functional layer composition for finest machining with absolute reproducibility

Technical data

Core	Copper-cladded steel
Coating	CuZn50, outer layer Ag
Tensile strength	2,000 MPa / 290,000 PSI
Elongation	1%
Color	Gold

Delivery program

Diameter [mm]	0.02-0.10	0.05-0.10	0.07	0.08	0.09	0.10
